

Project Rubric

Name 1: _____ SNo _____ Class _____ Submission Date _____

Name 2: _____ SNo _____ Project Title: _____

Object-oriented Programming (ESE2004) : Project Weightage: 50%, 100 marks

Project Design Report (Group, 10%, 20 marks)

Areas	Excellent (10-9)	Good (8-7)	Average (6-3)	Poor (2-0)
Objective & Conclusion 4	Clear objectives that are reflective of project(Difficulties and problems encountered and what was learned).	Objectives reflect a portion of the project(Partially explained difficulties and problems encountered and what was learned).	Objectives not exactly relevant to the project(Explained difficulties and problems encountered and missing what was learned).	No objective. No conclusion was included OR shows little effort and reflection.
Use Case Diagram 8	Correct usage of use case elements and links. Appropriate use of relationships (include, extend and generalization). Able to explain/justify relevancy of diagrams based on overall project requirements.	Mostly correct usage of use case elements and links. Indicated most of the relationships. Partially explain/justify relevancy of diagrams based on project requirements.	Incorrect usage of use case elements and links. Relationships are not relevant to use case. Unable to explain/justify relevancy of diagrams based on project requirements.	Missing diagrams.
Domain Class Diagram 8	Complete Domain Class Diagram with necessary attributes and user defined operations/methods. Classes have correct association and multiplicity.	Partially completed Domain Class Diagram with necessary attributes and operations. Classes have partially correct association and multiplicity.	Incorrect Domain Class Diagram with 1 or 2 bloated classes with little or no association and multiplicity.	Missing diagrams.
				Subtotal

Interim Review (Individual, 15%, 30 marks)

Areas	Excellent (10-9)	Good (8-7)	Average (6-3)	Poor (2-0)
Class Diagram 8	Class Diagram contains all meaningful classes and adhered to the MVC model(GUI classes included) and messages with correct sequence.	Mostly correct Class Diagram with some classes missing but adhered to the MVC model and correct messages.	Many missing classes in the Class Diagram and messages are incorrect.	Missing diagrams/classes.
Coding for basic features 18	Completed coding for all the basic features(CRUD). Program works without any error and able to explain.	Completed coding for any 2 basic features. Program works with minor errors and able to explain.	Completed coding for any 1 basic features. Program works partially.	Some or no coding for any of the basic features.
Storyboard / GUI Design 4	All required screens and message boxes are designed with full details.	Most of the required screens and message boxes are designed with sufficient details.	Some of the required screens are designed with general details.	Missing storyboard/GUI.

Demo, Integration, Report and Code Submission (Individual/Group, 25%, 50 marks)

Areas	Excellent (10-9)	Good (8-7)	Average (6-3)	Poor (2-0)
Bonus Features (Individual) 20	At least two bonus features are implemented relevant to the project theme. The features clearly enhance the application usage.	Implemented one bonus feature relevant to the project theme. The features partially enhance the application usage.	Partially working bonus feature. The features limit the use of the normal application usage.	No bonus feature is implemented or some effort is made towards implementing a bonus feature.
Understanding of Program (Q & A) (Individual) 10	Demonstrate in-depth knowledge and understanding of the application. Fluent in explaining and answers are accurate.	Demonstrate good knowledge and understanding of the application. Less fluent in explaining but answers are correct.	Demonstrate some knowledge and understanding of the application. Less fluent in explaining and some errors in answers.	Demonstrate poor knowledge and understanding of the application. Not fluent in explaining and many errors in answers.
Integration (Group) 10	Integrated both the modules and the program works seamlessly.	Partially integrated but overall program can work.	Some effort put-in in integration but integrated program does not work.	No effort made in integration.Modules work independently.
Finalized Class Diagram, Storyboard, Conclusion and Code submission (Group) 10	Includes finalized Class Diagram, Storyboard, limitations and with appropriate conclusion. Submitted code online.	Includes finalized Class Diagram, Storyboard, incomplete information on limitations and conclusion. Submitted code online.	Includes partially completed Class Diagram, Storyboard and incomplete conclusion.Submitted code online.	Does not include Class Diagram and Storyboard.Not submitted code online.
